MEDIA KIT & ADVERTISING GUIDE

The job board built for the dock floor.

Warehouse and logistics hiring, done fast and honest — for the people who move freight and the employers who need them.

About Us

*WarehouseJobs.com is a job board built for **warehouse and logistics work** — the roles that keep freight moving. We started with a simple idea: hiring for the dock floor should be as fast and honest as the work itself. Job seekers shouldn't wade through generic listings meant for office jobs. Employers shouldn't pay enterprise prices to reach people who already know what a reach truck is.*

What Makes Us Different

Warehouse and logistics work has its own rhythm — hourly shifts, fast turnover, certifications that matter. We built the whole platform around that, instead of bolting a filter onto a general job board.

Warehouse-Only Focus

Every listing is a warehouse or logistics role — forklift, pick/pack, dock, inventory. No noise from unrelated industries diluting your applicant pool.

Flat, Transparent Pricing

One flat rate per job post, published on our pricing page. No contracts, no per-applicant fees, no long-term commitment.

Mobile-First, Fast Apply

Most roles can be applied to in under a minute from a phone — built for hourly, high-turnover hiring, not resume-and-cover-letter jobs.

Built for High-Volume Hiring

Batch ingestion support for employers and staffing agencies posting many roles or ATS feeds at once.

Strategy & Benefits

Every package maps to a stage of the hiring funnel — from getting seen by warehouse workers to getting their application.

01 · AWARENESS

SEO-optimized category & city pages, job alert emails, and a free first job post so employers can try the platform before paying.

02 · ENGAGEMENT

Job posting packages, featured-job upgrades, banner ad placements, and a branded employer company profile.

03 · CONVERSION

Mobile fast-apply in under a minute, an applicant management dashboard, and weekly applicant reports.

How It Works

Employers can go from sign-up to a live job post in about four minutes.

STEP 1

Create your employer account

Free to sign up — takes minutes.

STEP 2

Complete your company profile

Showcase your brand to job seekers.

STEP 3

Choose a package

Posting, advertising, or Featured Employer.

STEP 4

Publish & manage

Post jobs or launch ad campaigns; manage applicants from your dashboard.

STEP 5

Track results

Applicant reports, CPM & budget reporting, GA4-verified impressions.

New employers get one free 30-day job post — no card required.

Trust & Safety

Employers and job seekers both need to trust what they see on the platform. Here's how we back that up.

Secure payments via Stripe

Card numbers go directly to Stripe — we never see or store them.

Flat, published pricing

No hidden fees and no long-term contracts — every package is priced on the site.

Postings reviewed for authenticity

Employer accounts and listings are reviewed; job seekers can report jobs that look wrong.

Applicant data used only for hiring

We never sell personal data or share it for third-party advertising. Ads on the site are our own employer promotions.

Trusted By

Warehouse and logistics teams at national employers and 3PLs use WarehouseJobs.com to hire — a sample of the companies who've posted or advertised with us.
